## TERRA FIRMA GLAZED BRICKS

Inspired by the work of midcentury modernist architects like Jørn Utzon, John Lautner and Craig Ellwood, this collection of glazed brick tiles boasts an earthy, organic quality that blurs the boundaries between indoor and outdoor living. Adding to their natural allure, each tile is sprayed by hand and finished in a colour palette of 11 glazes that allows the character of the red and black clay to show through. Our glazing technique yields a high level of colour variation that means no two tiles are exactly alike.

Ideal for residential projects, including interior and exterior walls and fireplaces. Tiles are available in two formats – a rectangle brick slip and an external corner piece. The corner piece can be used for external corners on walls, fireplaces or bench tops. The brick slips can be laid in a number of traditional brick bond patterns, using grout lines from 3-10 mm depending on the pattern format. Due to the intricacy of the production, these bricks are suitable only for smaller-scale commercial projects under 100sqm.

## LEAD TIMES

All brick slips are made to order in 6 -12 weeks depending on order size. Custom colours are available and will add additional time to your order. Custom sizes are not available, but tiles can easily be cut on site to create complex patterns.
